

As a fast-growing international corporation with a team of 200 enthusiasts and activities in 60+ countries, we are in the process of ushering in a new era of medical therapies and biotechnology. We are looking for smart, visionary and creative minds who fit in our innovative, quality oriented and customer focused company with individual team players. CytoSorbents Europe GmbH is located in Berlin. **Do you want to change medicine? Apply now!**

We are looking as of now for full-time and direct hires for:

VP Marketing (m/f/d) Cardio Vascular

Your duties...

- You will strategically and forcefully build and develop the business segment, open up new market opportunities and be essential to constantly optimize the existing company processes.
- You are responsible for the fully comprehensive global commercialization strategy and successful implementation the respective business segment
- Lead global market research and competitor analysis efforts to help shape and adapt global strategies
- Maintain close contact with key opinion leaders together with the Head of the medical team in your segment
- You will build a global, highly motivated and out-performing team in your segment and stir with vision and entrepreneurial spirit like a company leader: This is a new role, an opportunity to showcase your business and marketing expertise whilst building and developing your high-performance team around you.
- Be a great leader of your people who empowers and inspires; a consensus builder; and able to work across the business seamlessly to contribute to achieve our ambitious goals.
- Work together as one team with the other departments such as Sales, Clinical, Medical, Marketing operations and Product Management.

Your profile...

- You hold preferably but not necessarily a degree in Business Administration with a focus on marketing, business development, entrepreneurship or a comparable focus
- You have at least 15 years of professional experience in international commercial functions as well as leadership experience in medical device, biotechnology or pharmaceutical business in the desired medical segment
- Experience in building structures and businesses within the medical sector
- An individual who can develop and express a vision for medical business-related topics and influence the landscape in your medical segment
- You have an excellent feel for the medical market and are passionate about topics such as disruptive therapies and medical devices, transformation and technology introduction
- Business fluent in English verbal and written is a must, German is a strong plus

...Our compensation package offers you...

- The chance to help patients in need and introduce disruptive, potentially lifesaving therapies: **CHANGE MEDICINE**
- An exciting work environment with start-up mentality, resources of a mid-sized NASDAQ listed company with a potentially disruptive technology and therapy platform and aggressive growth
- An employment contract of unlimited duration
- Attractive and flexible working conditions including remote work options
- A competitive salary package including variable performance-based options for upside income and a highly attractive incentive stock option program
