

As a fast growing international corporation with a team of currently 230 enthusiasts, and with activities in more than 50 countries, we are in the process of ushering in a new era in therapy systems/products and biotechnology. For this purpose we are looking for clever and visionary minds who like to create and shape the future, and who would fit perfectly into our innovative and quality-oriented company with individual team players. The European headquarters are located in southeastern Berlin.

We are looking as of now for a full time and direct hire:

Senior Manager Medical Scientific Liaison (m/f/d)

You will...

- Support our national and international sales teams in local hospitals in dealing with medical-scientific issues
- Coordinate and expand our knowledge management of CytoSorb issues
- Be our contact person for internal and external medical-scientific requests
- Represent our company at conferences and other events
- Support and directly report to our Senior Director Medical (Strategy)

If you...

- Hold an academic degree in medicine
- Have gathered clinical experiences in critical care medicine or internal medicine or cardiac surgery
- Have additionally gained at least 2-3 years of relevant professional experience within a dynamic and industrial work environment in the field of Life Sciences
- Show profound English and German language skills in both speaking and writing, and ideally have a command of another foreign language, preferably French and/or Spanish
- Are experienced in presenting complex medical content in an interesting and understandable manner
- Are prepared to travel at least 50% of your time

...then we offer you...

- An exciting work environment in a sustainable and successfully growing company with start-up-mentality
- An open-ended full-time contract
- Attractive and flexible working conditions
- A competitive salary package including a stock option program

...We are looking forward to hearing from you and receiving your prompt application sent to hr@cytosorbents.com.

With my application, I agree that the data collected by me for the processing of my request are collected and stored electronically. This consent can be revoked at any time with a message to us.
